First of all I would like to start this letter off by saying thank you very much for all of your help and support. Before I came here I do recall being scared and confused. I could not predict my life. I wanted to die. But there was a light at the end of the tunnel and that light was Sunnyside. I came here broken and disoriented. But through therapy and effort I began to piece myself back together. Harbor staff was always there when I needed them. When I had problems with other residence they always help me find a positive safe way to deal with them.

Thank you
And keep up the good work
